

The Blythe Fever Committee 2020 needs your help.

In preparation for the celebration of Blythe's first 100 years, we would love it if you could search through your old photo albums and memory boxes to find photos of landmarks, houses, and events that tell the story of the history of our sweet little town. Mary Jane Abbott will be the contact person regarding these treasures. We will gladly come to you and scan your priceless treasures. We do not want to keep your originals, we only want to make a copy and record your memories. You can contact Mary Jane at 706 394-7207.

We also want your opinion. In order to have a successful Blythe Fever in 2020, we need to choose a date that does not conflict with other events, but also works well for our city. Blythe Fever has been held both in the spring as well as the fall. For a point of reference, the average temperature for the months of April and October are both 77 degrees. If you could look at the following dates and provide your input to Mrs. Chancey it would be greatly appreciated.

April 25th

May 2nd

May 9th

October 10th

Your assistance with this will be greatly appreciated. Thank you for your time and effort.

Mary Jane Abbott
